

# HIZERO

Cleaning Made Easy

## F300 All-In-One Hard Floor Cleaner

Clean Smarter, Live Better

Sweeps and mops simultaneously,  
giving you the ultimate clean floors.

What is F300?

## Light Design, Big Results

At HIZERO, we are committed to delivering the best cleaning results. The F300 features our most lightweight design, making it effortless to sweep and mop simultaneously for the ultimate clean floor.

---

How does it clean your floor?

## UltimateClean™ Technology

The F300 utilizes our patented Multi Roller, with a highly absorbent roller flushed with clean water to pick up debris, dust, and liquids—without redistributing dirt like traditional methods.

---

Why you need a HIZERO?

## Save Time. Save Effort

No more sweeping before mopping—HIZERO does it all simultaneously. Operating HIZERO is as intuitive as using a mop: just move it forward and backward, and it removes solids, liquids, hair, and dust from your floor in one simple motion.

Our Multi Roller is made of high-density polymer, not fabric, making it gentle and durable to protect your floors from scratches.

What more does HIZERO bring?

## Healthier for You and Your Family

It emits no fumes, odors, or dust back into the environment.

It also reduces noise pollution in the home, thanks to its low noise level.

### Non-stop Cleaning Time

With up to 60 minutes of runtime and a 400ml tank, floor cleaning is seamless. No frequent recharging or refilling needed—HIZERO makes cleaning easier, whether in a small or large home.

### Easy Maintenance

With Triple Auto Separation, solids, liquids, and hair are separated for proper disposal, simplifying floor cleaning while helping the environment.

### One HIZERO for Every Occasion

Perfect for daily cleaning and accidental spills, it works on all types of sealed hard floors, including wood, marble, ceramic, vinyl, and more.

No Dust  
Emits

Lower Noise  
Level

Extended  
Battery Life

AirDry

Realtime  
Self-Cleaning

## Specifications

### Product Name

HIZERO F300 All-in-One Hard Floor Cleaner

### Cleaning Roller

Hi-density polymer

### Net Weight

3.5kg

### Dimensions
