

HIZERO

Cleaning Made Easy

F600 All-In-One Hard Floor Cleaner

Sweeps and mops simultaneously,
making your life easier.

What is HIZERO?

A cleaner that makes your life easier

At HIZERO, we are committed to making cleaning your floor easier. So we went out and created the world's first Cordless Hard Floor Cleaner. It can sweep and mop, while removing solids, liquids, hair and dust.

How does it clean your floor?

UltimateClean™ Technology

Unlike any other floor cleaners, HIZERO always cleans your floor with a clean roller constantly. Using clean water to keep the roller clean, we then reduce the re-distribution of any debris on your floor. This intelligent feature, simply ensures every part of your floor is perfectly clean.

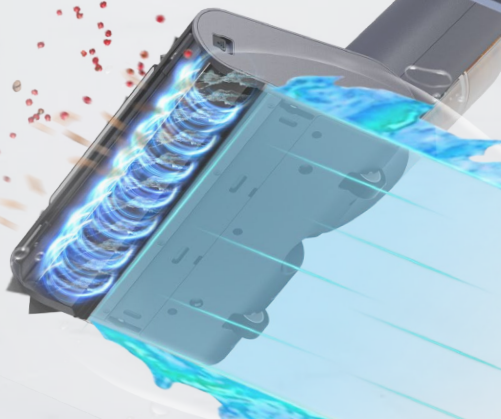

Our Multi Roller is made of hi-density polymer rather than common fabric, making it gentle and durable enough to protect your floors from scratches.

Why you need a HIZERO?

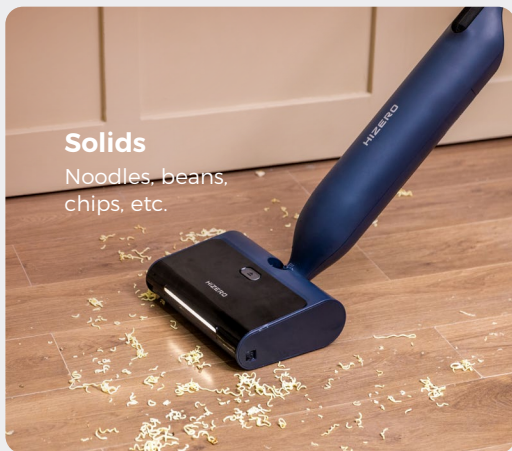

Save time. Save effort

No more sweeping before mopping. HIZERO does it all for you simultaneously. Operating HIZERO is as intuitive as using a mop. Move it forward and backward, and it removes solids, liquids, hair, and dust from the floor. So simple yet so intelligent, your floor is cleaned in one simple motion.

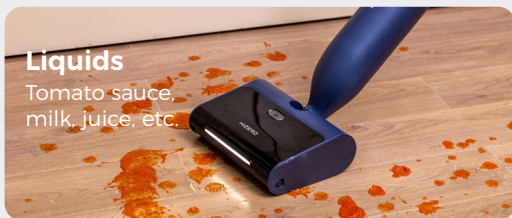

Solids

Noodles, beans, chips, etc.

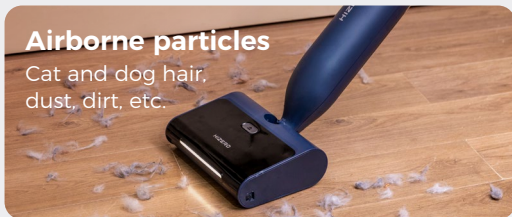

Liquids

Tomato sauce, milk, juice, etc.

Airborne particles

Cat and dog hair, dust, dirt, etc.

Healthier for you and family

Our innovative No Suction Technology, means HIZERO provides a healthier environment during and after cleaning.

No dust emitted

No retransmission of warm air

Lower noise level at 60dB

Longer battery life

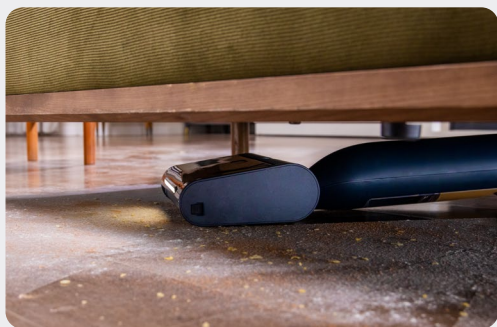

What more does HIZERO bring?

Sophisticated design

HIZERO cleaner won the iF Design Award 2022 for its ergonomic and streamlined design.

As a consumer-focused brand, we value the user experience. HIZERO is easy to operate. The body can lay flat up to 180°, making it easy to clean under furniture.

Non-stop cleaning time

With up to 60 minutes of running time and 600ml water tanks, floor cleaning can be completed seamlessly.

Without the need for frequent recharging and refilling, whether it's a small or large home, HIZERO makes floor cleaning easier.

Every floor is ultimately clean

Thanks to Realtime Self-Cleaning technology, the cleaning roller is flushed every second during operation, ensuring that every inch of your floor is mopped with a clean roller and fresh water.

Additionally, with AirDry™ technology, the floors are dry and clean in seconds.

Floor cleaning is simplified with HIZERO

One HIZERO for all occasions

Perfect for daily cleaning and accidental spills. It can be used on all types of sealed hard flooring such as wood, marble, ceramic, vinyl, and more.

Easy maintenance

With Triple Auto Separation, we separate solids, liquids, and hair for proper disposal, simplifying floor cleaning and helping the environment.

Specifications

Product Name

F600 HIZERO All-in-One Hard Floor Cleaner

Cleaning Roller

Hi-density polymer

Water Tanks Volume

600ml

Noise Level

<60dB*

Runtime

>60 mins after 4 hours of charging

Net Weight

4.5kg

Dimensions

295*210*1160mm

Additional Highlights

- Longer battery life with 36 watt power consumption, unlike other wet & dry vacuums that use over 150 watts.
- Easier visibility with integrated LED lighting during cleaning.
- Simple maintenance with Triple Auto Separation prevents clogs and eliminates odors.
- When your floor is cleaned with our cleaning solution, you will improve your result and remove 99.99%** of bacteria.

*Sound pressure tested from 1m distance in the HIZERO Lab.

**According to the THOR test report No. PC20200228, HygieneHero™ can kill 99.99% of E. coli, Staphylococcus aureus and Candida albicans under 1% dilution.

Our Promise

We promise to deliver the ultimate cleaning experience because we care about you and your quality of life. We help you enjoy cleaner, more hygienic homes faster and with less effort. We achieve this through our nature-inspired technology, sophisticated design, dedicated service, and attention to the things that matter to you.
